TABLEAU AMBASSDORS

Tableau ambassadors teach and share while fostering a positive and supportive space within the community.

this global air transportation network dataset is a comprehensive collecton of information on airports,airline and their routes.

They give credit is due, and prioritize inclusivity in everything they do.

Additionally, this includes their IDs, name aliases,IATA ans ICAO codes, callsigns country of orgin and active/ inactive status.

It contains information such as names,cities ,countries,codes (IATA and ICAO) longitudes, latitudes and altitudes of airports across the world with detailed time zone and daylight saving time data.

They shine the spotlight on new voices, innovative ideas, and make the communities around them better.

Tableau ambassadors serve in one of seven branches: Forums,User Groups, Academic, Data dev, Public,Social, and CRM Analytics.

unlocking insight into the global air transportation network with tableau

TABLEAU & VISUALISATION : UNLOCKING INSIGHTS IS THE KEY TO SECURING BUSINESS

#1 Data visualisation is the process of representing data graphically. A data set represented visually speaks more than just numbers.

@ GLOBAL AIR TRANSPORTATION EXECUTION SYSTEM

Global air transportation execution system refers to the air mobility commands aerial port operation s and management information system that is designed to support automated cargo and passenger processing.

#2 The charts or data respresentation should have to be easily comprehensible. If not, their purpose is defeated, before they can be interpreted. The data visualisatation need to be simple, ultimate to maximise their vale to be end - USER.

#3 tableau enables big data analytics by providing connectivity from big data platform such as hadoop, speak and No SQL data warehoues. By extracting the data to tableau, we can build charts to identity patterns and trends.
